

FINDING GOVERNMENT DOCUMENTS

Government Documents are some of the most useful resources available. These publications vary from brief pamphlets printed for the general public to lengthy technical reports useful to scientific specialists. Government publications appear as books, pamphlets, manuals, statistical bulletins, technical papers, periodicals, annual reports, maps, etc. While many are available in print and in microform, a rapidly increasing number are available on the Internet.

The links below provide quick access to federal, state, and local government publications:
